

# HENRY F. MAMUCOD

SENIOR SCIENCE RESEARCH SPECIALIST

## RESEARCH INTERESTS

- Food science
- Food microbiology
- Functional Food Development

## FEATURED PUBLICATIONS

Mamucod HF, Dizon EI, and MV Romero. 2014. Health-promoting properties and safety of angkak (red mold rice) sold in Nueva Ecija, Philippines. *Asia Life Sciences*, Volume 23:2, pp. 371-383.

Abilgos-Ramos RG, Manaois RV, Morales AV, and HF Mamucod. 2015. Quality characteristics and consumer acceptability of bread supplemented with chili pepper (*Capsicum* sp.) leaves. *Food Science and Technology Research*, Volume 21:1, pp 117-123.

Henry obtained his MS in Food Science degree from UPLB. He has been involved in various research projects on the extraction and evaluation of health-promoting components of rice such as anthocyanin, microbiologically-derived pigments, and healthy oils.
