

EVELYN H. BANDONILL

SUPERVISING SCIENCE RESEARCH SPECIALIST

RESEARCH INTERESTS

- Grain quality
- Product development
- Blue-green algae

FEATURED PUBLICATIONS

Bandonill EH and GG Corpuz. (2015). Grain quality of irrigated lowland rice varieties as affected by season and crop establishment. *Philippine Journal of Crop Science*. 40(2):41-44.

Calingacion M, Bandonill EH, Romero MV, et al. Diversity of global rice markets and the science required for consumer-targeted rice breeding. 2014. *PLoS One*. 9 (1):1-12.

Evelyn obtained her Master of Science in Food Science degree from UPLB. She is currently involved in various grain quality research and product development projects.
